Youth Seminar

Shimla, Himachal Pradesh

Date: 7-8 April, 2016

Venue: Govt. Post Graduate College, Seema (Rohru), Shimla, Himachal Pradesh-171207

No. of participants: 144

Session details

The seminar was spread over two days. Sessions on 'Soft Skill Development Influencing Behavioural Change', 'Overview of Social Entrepreneurship and Skilling' and Group Activity were held on the first day. The second day was more activity oriented where these groups were involved in presentation, open house discussion, Simulation Exercise and Prize Distribution Ceremony.

Inaugural Session

Ms. Garima Kaushik, Research Associate, TERI welcomed the Chief Guest, other dignitaries and the delegates of the youth seminar and briefly touched the very purpose of the seminar and the various activities and programmes being carried out by TERI.

Chief Guest of the seminar, Dr. Parmod Chauhan, Principal, Govt. Post Graduate College, Seema (Rohru) further welcomed the participants and motivated them to think innovatively to contribute to the GDP of the nation. He highlighted tourism, medicinal and aromatic plants, fisheries and adventure sports as the potential sectors which could be of importance for the youth for a profitable social entrepreneurship. He identified cultural & biological diversity, traditional knowledge, pleasant climate, beautiful landscape, honest people to the strengths of the area which needs to be capitalized for employment generation. He also emphasized on the importance of skill development for sustainable development of the state and country in the competitive world.

While introducing the theme of the Youth seminar, "Entrepreneurship & Skilling: A Springboard for sustainable development", Ms Monmi Barua, Research Associate, TERI touched the key areas which needs to be looked into if the youth of the country aspire to harness the much talked about demographic dividend. She introduced the audience about

different ongoing projects and development programmes at TERI. The session concluded with the formal vote of the thanks by Dr. Umesh Narta where he thanked the Chief Guest, participating colleges of the state, delegates, NSS volunteers and the local media for their time and support.

Expert Session 1

The first session on 'Soft Skill Development Influencing Behavioural Change' was taken by Ms Reena Chadha, Safeguard Specialist, Punjab Tourism. Ms Chadha described India as a population superpower with low share in industrial growth, growing unemployment, growing environmental deterioration, health threats, with political and global risks etc. According to her, the panacea for Indian problems lies in 'Social Entrepreneurship'.

She suggested that key problems have to be identified at grass root level and solutions for the same should be sought for which the understanding of the impact of culture capital and grass root innovation assumes paramount importance. She also warned the youth against the myths about social entrepreneurship and shared the challenges. She involved youth in discussing the local problems and discussed likely solutions. Ms. Chadha also presented a few case studies of the success of social entrepreneurship like Water Hyacinth Craft Development: A Case study on the potential and need of Skill development in household tourism in Himachal Pradesh and Punjab.

Expert Session II

The second session on 'An overview of Social Entrepreneurship and Skilling - Thrust on Skilling India Initiatives' was taken by Mr. Prakash Bharadwaj, State Bureau Chief, Dainik Jagaran. Mr. Bharadwaj started by asking questions about the state of affairs of Himachal Pradesh and its local area. By citing a case of H. P. State Cooperative Bank's recent recruitment drive wherein as many as one lakh seventy two thousand people applied for just 250 clerical posts that too on contract basis, he drew attention of the audience to the fact

that how for a few posts of peon in H.P. High court thousands of highly qualified unemployed youth applied. He appealed to the youth not to be in the queue of employment seeker but be among the employment givers. He spoke about various provisions and opportunities for different sections of the society in programmes like Skill India, Startup India, Standup India etc. Mr. Bharadwaj elaborated the procedural details for seeking loans from banks for starting a new business under these programmes. He informed that in 2015 about one crore sixty two lakh tourist visited Himachal Pradesh and asked the youth to find out the solution and value

addition to harness the potential to attract more people to the area and start a venture based on their demands. The seminar was opened for discussion and students asked a number of questions on the topic. The participants were enlightened with valuable inputs based on the local area and tourism potential like religious tourism, household tourism adventure camping and sports and medicinal and aromatic plants of local area and the potential in *ayurvedic* and pharmaceutical sector.

This session was followed by a lunch break. Post lunch, the participants were briefed on the group activity on 'Make things happen - Create Start-ups for Change'. They were given time to pen down their ideas creatively on the topic in the form of poster or role play.

Group Activity and Presentations

In the group activity on Building your own enterprise, the students were divided into groups of 10-12 people and were given 5 startup conditions, based on which they had to create their own start up enterprises. All the teams were asked to present their projects on the next day.

Below are the descriptions of the ideas that each group came up with:

Group I: The enterprise proposed to provide shelter to stray cows, and preparing and venturing in the products like milk, curd, ghee, and manure and cow urine. The group also highlighted the place of cow in Hindu religion and the market potential of dairy products. The group presented how this initiative will lessen road accidents and injury to the cattle by removing them from roads and putting them in shelter.

Group II: This group proposed to start a business on organic farming. The group members through a skit highlighted the problem of declining fertility of soil and apple production in Shimla hill due to indiscriminate use of the fertilizer and need to resort to the cow dung based organic farming along with the additional income from the dairy products.

Group III: The proposed plan was to encourage use of Green manure and vermi-composting for better results in apple orchards. In a skit presentation, one of the friends of a farmer's son informs about the benefits of green manure and vermicomposting for quality apple production in Himachal Pradesh. The vermi-compost can be prepared at home and are in great demand in the market amongst the horticulturists. The manure available in the market is of low quality and chemical fertilizers are detrimental to the health and environment. Additional

income can be fetched through the marketing of dairy products if farmer start this business at commercial scale.

Group IV: This group thoughtfully tried to start a business of household tourism with a proposal to serve traditional food to the tourist. The renovation and maintenance of traditional houses for home stay, serving local foods, wild vegetables in traditional crockery, fabric, handloom, and life styles were their strength, besides use of IT for marketing was also plus point of their plan.

Group V: This group aimed at starting an NGO for increasing the attendance and admission at local primary schools to do away with the problem of child labour in the Rohru sub-division.

Group VI: Their idea was based on the conservation of Pahari (Hilly) culture and tradition, fibre & fabric, Handloom (Shawl, Jacket, scarf caps, coats etc.) and their display in the traditional cafeteria to attract tourist. Local dialects, music, songs, dances folklores etc. were also to be documented, recorded and conserved.

Group VII: The proposed plan was based on women empowerment and converting the free time of woman in winters into a profit making enterprise based on handloom industry by forming self-help group. The activities like knitting sweaters, socks, weaving shawls, blankets from the wool of sheep and goats reared by local residents and marketing of these products in a commercial way.

Group VIII: This was based on Dairy based quality products with technological interventions including establishment of milk chilling plant for collecting milk from local residents and cold storage for transportation. They planned to form a cooperative society similar to AMUL.

Group IX: They presented on their startup model "NIHAAR". They targeted mainly women in rural areas who are housewives. Through their presentation they explained that they will empower women by providing them training in local food products.

Group X: This project aimed at providing a clear understanding of what diversity is and how it provides livelihood services to different communities. Since Shimla has many resources which has been unutilized and their culture has not been reflected, various livelihood skills so that they can enhance their status. The main aim of their startup was to provide services to the rural areas of Shimla by which the rural people can be self-sufficient and thereafter they can raise their own socio economic lifestyle.

Simulation Exercise

The second day started with the presentations from these groups. This was followed by simulation exercise where each group was asked to prepare an advertisement for its enterprise. Participants were very keen on publicizing their initiatives.

Winners

Group Activity

Position	Name of the participants	Group No and Name of the colleges

Conclusion

The closing ceremony of the two day seminar was graced by Dr. Pramod Chauhan, Principal, Government Post Graduate College, Seema (Rohru), Shimla. Dr. Chauhan spoke about the need for young people to choose viable career options that will add to the economic development of the nation. He also elaborated on the fact that entrepreneurship not only makes a person self-employed but also provides jobs for others. Dr. Chauhan felicitated the winners of the simulation exercise and group activity with certificates. The certificates of participation were also handed to the participating students. Dr. Gopal Dutt, Associate Professor, gave the concluding remarks and encouraged students to participate in similar events. Ms Monmi Barua, Research Associate, TERI delivered the vote of thanks where she thanked the Ministry of Youth Affairs & Sports for accrediting TERI to organize such fruitful event in different parts of the country. Ms Barua also thanked the Principal of college for allowing TERI to organize the seminar in their college auditorium. She also thanked Dr Narata and Dr. Dutt for coordinating with the volunteers of the college for hosting the seminar and for supporting in other logistical arrangements. Last but not the least, she thanked all the participating students and teachers for being a part of the seminar and everyone who helped in making the seminar a success.

Analysis of feedback form

Attended similar seminar/ conference(s) before

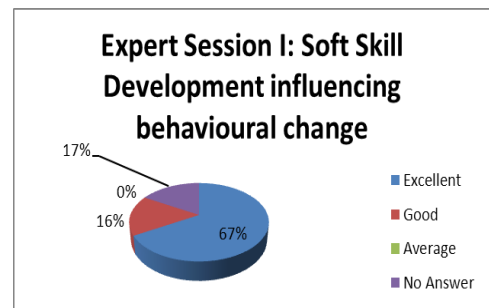

The chart indicates that the participants have never attended similar kind of workshops before. The reason might be of the distance and the exposure they were into. The participants showed very keen interest in attending the workshop and look forward to upcoming events organised by TERI.

Views on the sessions:

a) Expert Session I: Soft Skill Development Influencing Behavioural Change

The chart indicates that 67 % of the participants liked the session on 'Soft Skill Development influencing behavioural change'. This also signifies that the participants were not only interested in Skilling India Initiatives but also how behavioural changes influence in the society was also involved.

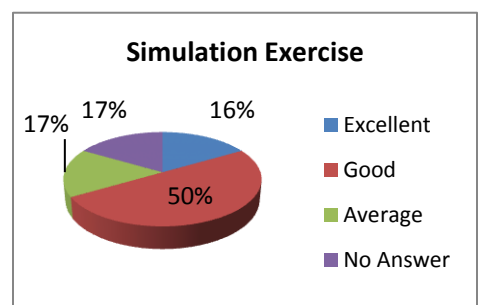

b) Expert Session II: Social Entrepreneurship and Skilling - Thrust on Skilling India Initiatives

The chart indicates that 67 % of the participants rated the session 'Social Entrepreneurship and Skilling - Thrust on Skilling India Initiatives' as good. It shows that they were interested in the topic and were interested to initiate it in their own level.

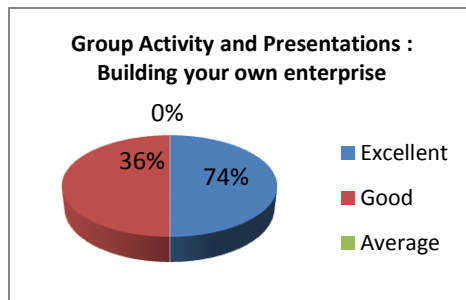

c) Simulation Exercise

The chart indicates that 50 percent of the respondents said that the simulation exercise was good, which was followed by 16 percent who rated the seminar as excellent. The participants were very involved in the activities and were willing to put these thoughts into actions.

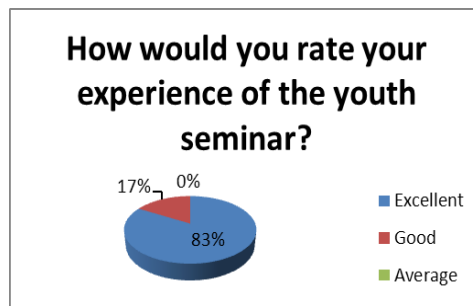

d) Group Activity and Presentations: Building your own enterprise

74 percent of the participants rated the seminar as excellent while the remaining 36 percent said it was good. This indicates that though they have not attended similar kind of workshops but through these group activities they could be involved and know more about Entrepreneurship and Skilling.

Experience of the youth seminar

When asked to the participants about the experience of the youth seminar, 83 percent of the participants rated the Youth Seminar as excellent while 17 percent said it to be good.

Most interesting session

A majority of the students voted the group activity and the Expert session I as the most interesting sessions. The session gave the participants real life experiences from the field. The group activity brought students from different backgrounds to come up with a common idea. These inspired the students to undertake similar initiatives for their own society and environment.

Would you like to be a part of such youth seminar again?

All the participants said that if given a chance they would like to participate in such seminars again.
