### **Women Empowerment Cell**

#### ***Action Plan for Gender Sensitisation 2020-21***

1. In view of the Covid 19 pandemic, online sensitisation programmes on health, hygiene, immunity and psychological issues related to gender discrimination and measures required will be organised.
2. For achieving the gender equity in the function of the college the participation of both genders will be ensured as gender equity is not possible in isolation i.e. involving women only.
3. Counselling on diverse issues has assumed paramount importance during the Pandemic and lockdown. The members of Women cell unanimously agreed to offering the mentorship/counselling to the students on issues of gender equity and other related issues( Physical, mental and social well being).
4. Girls will be encouraged to get their different basic parameters like BMI examined at newly started Health centre of the college and Nurse deputed will be directed to arrange for such basic tests and remedial measure will be suggested to each girl (hostellers and day scholars) for ensuring good health.
5. All function dedicated to gender equity which the cell has been organising will be celebrated as usual and some more functions may be celebrated in the larger interest of the women.
