

Sliver Jubilee of my teaching in P. G. College Seema

I am very pleased to share my feelings and emotions on the auspicious occasion of the Silver Jubilee celebration. This indeed, is a very proud moment for all of us that the college has completed its 25 glorious years. The celebration of this jubilee year is special for me as I am one of those privileged teachers who joined here on the day from where this college started its journey. I have tried to give my heart and soul to this institution right from its inception in 1988.

It was like a dream come true when I got an opportunity to step into my most desired profession of teaching. Initially I started my teaching with only three students in the class. Prof. R. L. Sharma was the first principal of this college. He was a very experienced and good human being. He inspired and supported me in many ways since I was very young at that point of time. The environment of the college was new and unique. It looked difficult to cope up with the stress and anxiety. Most of my colleagues who joined with me or after were invariably young and motivated. It helped me a lot to ease out the pressure and to develop confidence. I can not forget the companionship of my esteemed colleagues such as Mr. Praveen Kumar, Mr. Purushottam Jagithata, Mr. B.S. Pirta, Dr. Pramod Chauhan, Mr. B.R.S Sen, Mr. Chander Sen Chauhan, Mr. P. P. Chauhan and many more with whom I continue to cherish my friendship till date. During my long stay in the college I got opportunity to work with various Principals such as Dr. D. C. Katoch, Dr. J.S. Negi, Dr. Sharda Dhaulta, Ms. Shashi Bala, Sh. K. C. Garg and present principal Dr. B. L. Vinta. I found all of them to be good academicians, efficient administrators and excellent motivators. I have learnt from them that how the traits like devotion to duty, sincerity and hard work contribute to excel in the teaching profession.

The institution has not only witnessed many ups and downs in its journey of twenty five years but has also carved special niche for itself amongst a few of the leading institutions of the state. Nothing is more satisfying and pleasant experience for me as a lecturer of the first session of this institution to look at the present college where about 1700 students are enrolled and are getting quality education in one of the best infrastructure comprising of Arts, Science and Administrative Block. Now the college has a big Auditorium and separate hostel facilities for boys and girls. It seems like a dream that a college which became functional in a single room with a mere strength of 16 students has grown to such an extent.

The institution has certainly overcome many challenges and there are many more to come. I sincerely believe that this institution deserve a special remark and will play a dominant role regarding education and overall development, of youths. Swami Vivekanand has weightily pointed out “My hope of the future lies with the youth of the country, youth of character and intelligence, renouncing everything for the service of others, who can sacrifice their lives in working out my ideas and doing good to themselves and the country at large.” I would again like to congratulate all the people of this jubilant calibration on the occasion of silver jubilee.

(Sh. Chander Singh Rangta)
Assistant Professor (Economics)
